CAMPAIGN IS OPENED BY COLONEL

Former President Fires First Gun in State Fight at New York City.

SAYS HONESTY IS DEMANDED

President Taft Addresses Adjourned Session Republican League Tonight.

NEW YORK Sept 30.—Theodore Roosevelt, addressing the National Republican league in session at Carnegie hall today, delivered his first speech of the state campaign. He compared the Republican state convention with the Democratic convention now being held at Rochester, and on the strength of his comparison said he felt that the Republicans had the right to appeal to every decent citizen in the state without regard to party, to vote their way

The Saratoga gathering he styled a 'people's convention free from the influence of special interests.

John Hays Hammond, as president of the league, introduced Colonel Roosevelt The attendance was not large and Colonel Roosevelt was somewhat hoarse after his labors at Saratoga

"But" said Mr Hammond, "even his whisper is heard around the world and we will follow him up any San Juan hill he may lead us."

Colonel Roosevelt said in part

Interests Were Left Out.

"I am here to report progress. We have just held the Republican state convention at Saratoga. There never has been held in the state of New York a convention that was more methodical—a people's convention—not a lobbyist, not a representative of a great interest exercised a finger's weight of influence in that convention. That convention represented absolutely the opinions, the reasoned convictions and belief of plain every day men

"Three points—three essential points were made in our present form of 'principles'

"In the first place, that we stand, not timidly, not half way, but aggressively for honesty in public and in business life In the second place that we stand for governmental efficiency, and in the third place that we stand for the right of the people to control themselves, and not to be controlled by some one else

"Now the voters of this state will have to choose between that on the one side and on the other side this (here Mr Roosevelt held aloft a newspaper clipping), which I shall now describe to you in the language of one of our most enthusiastic envenomed foes a leading representative of the Wall Street Democracy, the New York Times of this morning describing the Democratic convention now sitting."

He read

Discusses Democratic Situation.

"'All day and night the Democratic leaders have been going, hat in hand to Mr Murphy and asking him humbly to favor this or that candidate,'" and continued

"In its editorial the New York Times falls in with the other Democratic leaders and asks for the nomination of a candidate by the convention. Now it goes: 'Never before has Tammany Hall been in such unquestioned control of a state convention Never before has any Tammany boss been enthroned as the state leader in the unlimited way in which Mr Murphy is recognized today The convention is in the hollow of his hand

"'Back of Murphy's control are rumors of strange and sinister influences You can not throw a brick in any di-

ONE MORE DAY BREAKS RECORD

SPECIAL SESSION HAS LASTED 53 DAYS.

This Was Length of Longest Previous Special Meeting 13th General Assembly.

Special to The Gazette

DENVER, Sept. 30—Fifty-third day of the special session of the Seventeenth general assembly. With the coming of tomorrow the records for special sessions in this state will be broken, and the further breaking of the same record undetermined The longest special previous to this was that of the Thirteenth general assembly, called to pass the revenue bill that had been botched and illegally adopted in the regular session. It lasted 53 days, to re-enact a bill that had been enacted in the regular session and had failed of constitutionality because clerks were days in engrossing it after the session had adjourned

Today the senate, immediately after hearing the reading of the journal, demanded that all absent senators be brought in This was reached by a call of the senate, when the sergeant-at-arms was instructed to find the absentees. Eight senators did not answer the roll call These were Carey, Carpenter, Casady, DeLong, Jones, Myer, Stephen and West.

The ostensible purpose of the call is to bring back Senator West, who had notified friends that he is through with the assembly and will not come back, and Senator Casady, who had gone away without excuse. But a call must play no favorites and be directed against all absentees

Regarded as Breach of Promise.

The absence of Senator Jones was looked upon as a breach of faith as he is one of the Republicans the "platform Democrats" rely upon to assist them in their fight with the Adams faction when the platformists shall have succeeded in breaking the Democratic senatorial caucus or secure control of that body This they hope to do when they get Senator West back The latter is the tenth senator to stand by Senator Adams in his fight for the corporations in the Democratic caucus West has been the weak sister in the combination held to fealty with difficulty The 'platform Democrats believe the long struggle without accomplishing anything has lessened his loyalty never strong to the cause of the corporations and that he is ready to recede With him they hope to change the vote in the Democratic caucus from 10 to 9 in favor of the Adams faction to 10 to 9 in favor of the Scott faction Here it all rests If when West reaches here tomorrow he favors the direct primary of the house against the convention primary of the senate the Governor's direct primary bill becomes enacted Or if he returns and the platformists break away from the caucus securing the aid of the Republican votes they feel certain are theirs by pledge and orders, they hope to enact their legislation in spite of the corporation influence that has up to this time dominated the Democratic senators

When the call of the senate was on first the intention was announced to continue under that call until all missing senators had been brought in. Then this afternoon word was received from Senator West that he is on his way to Denver not having abandoned the assembly altogether but having gone to [illegible] to arrange for business so that he can stay here longer without too great private loss. Word [illegible] Senator Casady [illegible] that he would be in his seat during the afternoon [illegible] the [illegible] was abandoned and [illegible] ever.

ENTHUSIASM MARKS FORMATION YOUNG MEN'S REPUBLICAN CLUB

Amid great enthusiasm, which augurs well for the success of the Republican ticket this fall, both in county and state, the permanent organization of the new Young Men's Republican club of El Paso county was perfected last night at the court house. Willis Strachan was elected president, L. O. Wigger, secretary, and R. M. Aitken, treasurer In addition, an executive committee was elected, consisting of Myles Cook, Charles Quinlan, O. E. Collins, Henry Sachs and Harry Allward, and also nine vice presidents, as follows Charles T Wilder, David Elliott, Frank Dunnington, Willis Sims R. A. Hart, A. O. Taylor, Irwin T Beyle, R A Dunbar and R. R. Bingham

Speeches were made by W T Kennedy, F F Schreiber A O Taylor S H Kinsley, A P Toombs, C C Hamlin, Albert E Hayes and others All the speeches emphasized the fact that the Republican vote must be registered, and that not one vote should be let go by default In the past good work has been done by the paid workers, and by a small number of volunteers. This year, however, there must be a large number of volunteers so that every precinct will be organized for the best interests of the party.

Stress was laid upon the importance of the meeting to be held tonight in the district court room at 8 o'clock, when the precinct organization will be perfected through plans mapped out by the chairman and secretary of the county central committee. It is not only necessary that the precinct chairmen and workers be present, but also that a large number of the Republicans of the party, the rank and file, be there to be assigned to the work which will pay the best dividends on election day Precinct captains will be appointed tonight by the chairman.

Everybody Must Register.

Several of the speakers last evening brought out the fact that many of the party members feel that because they were registered at the election two years ago, it is not necessary to register again this year Such is not the case and if the members of the party are not registered on the two remaining days, next Tuesday, October 4, and on October 10, they will be unable to vote

Chairman Schreiber, who returned last night from Denver, says indications in the capital city denote that a Republican victory in this state is assured Mr Schreiber is of the opinion that the former factions there have united thus insuring an overwhelming Republican victory in Denver county and strengthening the harmonious conditions in Colorado Springs.

Some of those who placed their names on the roll of the new club last night are as follows

R. R. Bingham, A. O. Taylor, Willis Sims, A H. Schisler, R. M. Aitken, O. R. Dunnington, E M Stith, S. E. Relfe, S. D. Burns, L. D Compton, Dr. A. C. H Freidmann, H. C. Allward, F F. Schreiber, Albert E. Hayes, M. H. Stubbs, C. T. Fertig, Lew Ginger, C. C. Hamlin, H. Hutchinson, J. F. Neff, A. H Horton, J. B. Ellis, R. A. Hart, H M Mason, C. P Kennedy, O. L. Wigger, Henry Sachs, C. M Hobbs, Dell Deits, E. E. Gould, J. D. Dunbar, Harry T. Pinnock, W. L. Strachan, B A. Banta, A. P. Toombs, Erwin T. Beyle, L. M. Hunt, James Ramsey, S H Kinsley, T E. Asall and William Scully

WOULD RECORD LIFE OF EACH AMERICAN

WASHINGTON, Sept. 30.—Bertillon measurements and photographs of every citizen for public record were proposed tonight at the American prison association convention by Albert P. Hall of Minneapolis in submitting the report of the committee on criminal law reform

"The United States government ought to make its chief concern to discover develop and realize itself by gathering and recording full biographic and civic data of each of its component units, the life of every man," said Mr Hall. "We have developed the registration and identification of domestic animals. Why omit the record of human life the supreme product of creation" The task is not impossible, its benefits would be incalculable and far-reaching.

"Such a registration should be national in scope and authority embracing a continuous registration and consecutive numbering of the whole citizenship including a duplicate card certificate system, identifying its bearer by photograph or finger prints."

Mr. Hall expressed the opinion that such a system would elevate and equalize the standard of citizenship, prevent duplicity of the individual in all his relations and extend the family ties, constitute a universal intelligence and credit bureau and simplify expensive election registration

CONFESSED DYNAMITER WAS AFTER NOTORIETY

CHICAGO Sept 30—After placing a bomb beside the residence of Mrs Potter Palmer and cutting his coat into shreds with a butcher knife Fred C Wahlenmeyer, 25 years old attempted last night to gain entrance to the mansion He was arrested

Wahlenmeyer demanded an audience with Mrs Palmer, but the watchman the first person encountered, summoned the police Wahlenmeyer at first told a story of having seen another man placing the bomb at the side of the house and of struggling with him

Following several hours of questioning he broke down and is said by the police to have signed the following confession

This bomb was made in the basement of my home by myself on the night of September 2. I loaded it with powder left over from a year ago last July 4 and let it lie on the joists of the basement till tonight (Thursday) at 7 10 o'clock Then I took it to the bushes south of the Palmer mansion and returned later My first story was framed up. The only reason that I can give is that I wanted to get into the limelight

ROOSEVELT CONSULTS THROAT SPECIALIST

NEW YORK, Sept 30.—It became known tonight that Theodore Roosevelt consulted a throat specialist in New York today because of the hoarseness that followed his speaking at Saratoga The colonel's throat failed him while making a tour of Europe

With several days rest he hopes to be in fine condition for his coming southern trip

TRYING TO STAVE OFF A COTTON WAR IN ENGLAND

MANCHESTER Eng Sept 30—George Rankin Asquith comptroller of the labor and statistics departments of the London board of trade was busy today in a last desperate effort to stave off a cotton trade

A lockout would affect 130,000 operatives and should the conflict be prolonged it is certain would involve 1,250,000

HERZIG GIVES SELF UP TO AUTHORITIES

NEW YORK, Sept. 30.—Simon Jacob Herzig, who, under the name of George Graham Rice, is said to have been the real head of the firm of B H Scheftels and company, the mining specialty firm that was raided by federal officers yesterday, surrendered to the authorities today almost at the same time that proceedings were taken to throw the firm into bankruptcy

Herzig gave himself up after officials had been hunting for him for more than 24 hours The bankruptcy proceedings were instituted by creditors, who filed a petition in involuntary bankruptcy, in which the assets of the firm are given at only $20,000

Herzig or Rice gave bond in $15,000 with a surety company when he presented himself before United States Commissioner Shields At the same time, through his attorney. William Travers Jerome, he offered to aid the government in making a full investigation of the charges against the firm.

Neither Herzig nor the company, Mr. Jerome said, is guilty of wrongdoing, and he expressed the belief that the government had been deceived as to the character of the firm's business. He intimated that ulterior motives were behind the prosecution

Sullivan a Fugitive.

At the same time that Herzig was admitted to bail, bond was furnished by the same surety company for three of the men arrested yesterday, George alias "Red Letter" Sullivan, Charles F Belser secretary of the company and Clarence McCormack. They had been locked in the Tombs over night

Immediately after Sullivan's release, he was re-arrested under an indictment returned in the state courts in 1901 charging him with stealing 100 shares of Republic steel stock from a resident of Long Island According to the police, Sullivan has been a fugitive for nine years

The petition in bankruptcy against the Scheftels firm was filed by Leon Stern Eugene Cerf and Frank Kernan whose claims aggregated $4,280

Another move against the firm today was the holding up of its mail by the department of justice Money orders sent the company it was announced will be returned to the senders Presentation of the case to the federal grand jury is progressing rapidly Among the witnesses summoned it was announced is Miss Esther Quinn of Boston

According to government she was formerly employed in the Boston office of the firm She is expected to appear before the grand jury tomorrow

PLUCKY WOMAN CAPTURES FUGITIVE CHINESE BOY

Uses Double Barral Shotgun to Make Celestial From State Reformatory Surrender

BUENA VISTA Colo Sept 30 At the muzzle of a double barreled shotgun which she borrowed from a friend Mrs. Dollie Winters yesterday captured Goo Kin a Pueblo Chinaman who escaped from the state reformatory Mrs Winters forced Kin to leave his hiding place along the banks of the Arkansas river throw up his hands and submit to having them tied, after which she bound his ankles.

Then with the assistance of her mother Mrs N P Day Mrs Winters lifted the celestial into a wagon and brought him to Buena Vista where he was turned over to the authorities.

President Woodrow Wilson of Princeton university, who has just been nominated by the Democratic party as its candidate for the governorship of New Jersey Despite that Mr Wilson's own country—the one in which the university is situated as well as several others adjacent refused to go into convention pledged for him, but selected other men, the convention nevertheless nominated him by two to one votes over his nearest rival. He addressed the convention after his nomination and was enthusiastically declared to be the ideal New Jersey candidate.

MANY THEFTS BY BOYS GANG

COMMITS BURGLARY BY THE WHOLESALE.

Officer Neff Rounds Up Members and Secures Confessions Mystery Solved.

Yesterday was an auspicious day for Humane Officer Neff, for after half a day's work he solved the mystery attached to nearly a score of thefts and robberies committed within the last few weeks, and which have greatly puzzled the police.

As a result of his investigations, Neff caused the arrest of Morris Rannigan, aged 17, Ray Edwards 16, Lou Pierce 16, and secured confessions from Earl Underwood, 14 and Earl Locey, 13, who were taken in charge by the sheriff's office two days ago for setting fire to three tent houses and causing a loss to the owners of about $600. Locey is at home under surveillance, and the others are in the county jail.

Underwood, who was being held for the tent house escapade broke down when he was being questioned yesterday and told the humane officer a story so weird as to be almost beyond belief He admitted entering many homes in the north end, not under cover of darkness, but in broad daylight, and taking whatever struck his fancy The other boys were implicated in the thefts and Underwood later assisted the official in getting confessions from them The places burglarized were mostly unoccupied

Many Robberies.

The general checking up so far has brought confessions to robberies at 1227 and 1715 North Cascade avenue 1310 North Tejon street 1427 Wood avenue 16 Cheyenne boulevard the Emporium 1316 Grant avenue Zoo park and other places in various parts of the city

Whatever was found in the houses that appealed to the self-confessed plunderers was carried away Some of it though very little it is said was sold while a greater part of the booty was divided among the five boys Much of this has been recovered by Neff and the collection contains gold watches chains charms rings rifle and revolver shells silver mounted whisky glasses pocket knives a gold dagger with ivory handle gold ore a collection of old coins bicycle tools gloves brass rods fireworks, drawing instruments two rifles a shotgun college flags pocketbooks wood working tools etc

This is a partial list of the miscellaneous plunder secured to date It is believed that with the arrest of an other lad who is now being sought other articles will be recovered

LORD AND LADY TALBERT REGISTERED AT ANTLERS

Lord and Lady Talbert, accompanied by a maid, arrived in Colorado Springs late last night and registered at the Antlers hotel They are touring the country, and stopped off here to take in the sights of this region The visitors are from Dublin, Ireland.

MINERS GO TO ARIZONA 1911

LOS ANGELES Sept 30—The American Mining congress wound up the business of its 1910 convention today with the election of officers and the adoption of several resolutions principal among which was one calling upon Congress to instruct the department of justice to investigate all grants involving oil or other mineral lands, and where it is found that public lands are held under grants that should vest in the United States, proper action be taken to recover the same

Arizona was chosen for the 1911 convention Either Douglas or Phoenix will be the place of the meeting, the selection being left to the board of directors of the congress

John Dern of Salt Lake was elected president and James Callbreath of Denver re-elected secretary

The resolution in reference to the investigation of land grants was a substitute for that introduced by Thomas E Gibbon of Los Angeles, which alleged definitely that the land grants to the Southern Pacific railroad in California were invalid by the reason of the discovery of oil and calling upon the government to take immediate steps to recover a large section.

The substitute makes the scope of the resolution general so as to include grants covering mineral lands of every character in every public land state.

The ground for the proposed action is that the grants conveying the lands, particularly those to the Southern Pacific in California, excepted all areas bearing minerals with the exception of coal and iron

A BOLD ATTEMPT TO ROB BANK IN IOWA

COUNCIL BLUFFS, Ia., Sept 30 A bold attempt was made to rob the bank of McClelland a small town in this county, this afternoon

A man giving the name of Tom Kirby, whose home is said to be at Oakland, Ia., entered the bank and, presenting a revolver, demanded that Cashier Walter Julius turn over the bank's cash Instead, Julius opened fire on the bandit. Both men emptied their revolvers, and the robber was slightly wounded in the arm Julius was not hurt

Kirby then ran from the building and tried to escape

A farmer's picnic had brought [illegible] people to McClelland today, and the crowd, attracted by the shooting, soon captured the would-be robber

Kirby is 45 years of age, and claims to have a wife and eight children

He gives the fact that he can only earn $1.50 a day as his reason for the attempted robbery

LARGE GIFT FROM RAILWAY TO SYNOD

TOPEKA Kan Sept 30.—Announcement was made here today that President E. P. Ripley representing the Atchison Topeka and Santa Fe Railroad company had made a gift to the Presbyterian synod of New Mexico of the Montezuma hotel and 1,500 acres of land at Las Vegas. N. M., for a Presbyterian college.

It is stipulated that within five years the college must have 300 students. The synod has accepted the gift, which it is claimed, is worth $1,000,000. The Montezuma hotel has been used by the Santa Fe as a health resort

FAMILY NOT TO INTERFERE

Justice Steele, Despite Illness, Will Run for Re-election to Supreme Court.

DENVER Sept 30 Members of the family of Chief Justice Robert W Steele who has been ill for several days, tonight declared there was no truth in reports that they have requested his name be taken from the Democratic ticket as a candidate for re-election to the supreme bench. Officials of the state organization stated also that there was no intention of removing Justice Steele because of his illness

Justice Steele was reported tonight as improving and the statement was made that his complete recovery was only a question of time

TO FINISH EXAMINATION OF SENATOR LA FOLLETTE TODAY

ROCHESTER Minn Sept 30—The examination of Senator Robert M LaFollette will not be completed until tomorrow and until then it cannot be determined whether he will be operated upon

The senator walked to the office of Dr W J Mayo today and after an examination took an automobile ride and attended the Olmstead county fair He wired his wife that thus far his condition was favorable and that there was no occasion for anxiety Pending the completion of the diagnosis, the Mayos decline to discuss the nature of the senator's illness.

Senator LaFollette stated that he has been suffering intermittently from gall stones for three years

"I feel certain that my friends need feel no anxiety said the senator Aside from the recurrent pains I enjoy my usual health."

211 BUSINESS FIRMS FAILED IN LAST WEEK

Largest Number, for Corresponding Period, Since 1908 Business Conditions Conservative.

NEW YORK Sept 30—Bradstreets tomorrow will say Reports from distributive trade centers this week point to a slightly increased demand from jobbers and retailers. Collections show some betterment and a few markets note slightly less tension in local money conditions. Still, buying is classed as conservative as a whole.

Industry shows few changes. Iron and steel are quiet and actual necessities govern taking of crude and finished products In the woolen goods trade the outlook is still not entirely clear Raw wool at Boston is relatively lower in price than at London. The leather and shoe trade are below normal activity as a whole.

Advices from the west and south are rather better as to this line but the New York building trade is disorganized by a strike of 30,000 bricklayers. The coal trade has been benefited by the advance of the season

Business failures in the United States for the week ending September 29 were 211 against 190 last week, 196 in the like week of 1909, 237 in 1908, 177 in 1907 and 136 in 1906

Business failures for the week in Canada number 15 which compares with 22 last week and 22 in the corresponding week of 1909.

(Continued From Page One.)

made unanimous on the motion of Ulster's delegation. All the other nominations were made by acclamation.

The convention unanimously indorsed the candidacy of Irving G. Vann, nominated by the Republicans to succeed himself in the second vacancy on the court of appeals bench.

When the leaders left the rooms of Mr. Murphy at 1.30 this morning, after a vain effort to agree upon a candidate, the majority of them were for State Chairman Dix. Unanimity of opinion, however, was prevented mainly by Mr Dix's persistent refusal to run.

"I do not see how I could accept with honor," he declared.

"I am afraid it would leave sore spots all over the state."

Every influence was brought to bear upon the unwilling choice. Several of his relatives, his wife, his brother-in-law and his nephew, all of whom were with him, were sought out and urged to try persuasion. But when the convention met this afternoon for the first session of the day, Mr. Dix was still undecided. Pale and haggard, showing the strain under which he was laboring, he called the convention to order. The address of permanent chairman Herbert P. Bissel, the reading of the platform, the reports of committees and the adoption of the routine resolutions held the delegates until 3.43 o'clock, when the convention took a recess until 7.30 p. m.

The conference in Murphy's room was resumed almost immediately. Four hours later a committee consisting of national Democratic Chairman Mack and John E. McCooy, the Brooklyn leader, left the room and went to Mr. Dix's suite. There they told the chairman that the leaders still held to their opinion that he should run. Then Mr. Dix capitulated.

Within five minutes the committee returned to the conference and announced his decision. Soon Dix himself came out of his room.

"Yes, you may shake my hand," he said smilingly to those who congratulated him. "But," he added, "I don't know whether you should congratulate me or not."

"He has shown himself a big man," was the comment of Edward M. Shepard. Mr. Shepard was the first to abandon his own candidacy in favor of Dix.

Mr. Dix had made it a condition of his acceptance that all the other candidates should promise him their support. From how many he received this pledge could not be ascertained.

The question of the lieutenant governorship continued to give trouble. Congressman James S. Havens, another candidate for first place on the ticket, was said to be the leaders' first choice, but his representatives declared that under no circumstances would he accept. Then Mr. Conway agreed to accept the nomination for lieutenant governor.

Platform Adopted.

The platform adopted by the state convention tonight contains the following declarations:

"The Democratic party of New York, in convention assembled, pledges itself anew to the old nationalism embodied in the constitution of the United States and to the support in every way of the independent and continued existence of each of the three co-ordinate and distinct branches of the federal government; preserving all of them from attack and usurpation, and each from any possibility of encroachment by the others, and in particular we condemn all attacks on the supreme court of the United States.

"We are unalterably opposed to any usurpation by the federal government of the rights of the states.

"We denounce the Republican party in the nation for its gross and willful betrayal of the trust reposed in it by the people, and point out that the declared and expressed promise to revise the tariff downward, upon which the Republicans obtained office, has been wilfully disregarded and ignored.

Denounces Tariff Law.

The Payne-Aldrich tariff law, pronounced by President Taft to be the best tariff that the Republicans ever passed, was a flagrant breach of faith by the Republican party. The bill even increased the exactions of former Republican tariffs, and has placed great additional burdens on the shoulders of the average man.

"We charge the Republican party, both in nation and in state, with gross extravagance in public expenditures, with creating many unnecessary offices and adding to the public payrolls thousands of useless officials.

"We pledge ourselves to retrenchment and reform and to the economical administration of public affairs.

"Even this gross extravagance is overshadowed by the disclosures forced from a reluctant Republican legislature of official corruption, betrayal of public trust and flagrant and open bribery, which have astounded and horrified the citizens of the state and almost made the name of the New York legislature a hissing and a byword in the mouths of decent men throughout the country.

Favors Direct Primaries.

"We declare in favor of statewide direct primaries to insure to the people the right to choose members of political committees and nominate candidates for public office.

"We favor the popular election of United States senators.

"We favor an amendment to the federal constitution to permit the imposition by Congress of an income tax.

"We recommend the extension and development of the parcels post so as to increase the weight and size of parcels which may be carried by United States mail.

"The profit of public lands and water power should be preserved to the people at large, and as the value of these natural resources and returns from them increase, whether from development or otherwise, the state should benefit in the largest possible measure consistent with the honest enterprise of the present generation. We condemn the malfeasance and incompetency of Republican administration of the forest preserve. We demand strict and impartial enforcement of the forest laws, including immediate abolition of unlawful special privileges in lands dedicated by the law to the use and benefit of all the people."

The platform concludes with a denunciation of the "new nationalism."

Nominee Opposes Hearst.

NEW YORK, Sept. 30.—At the Buffalo convention in 1904, at which the Democrats nominated Hearst for governor, John A. Dix refused to sanction Hearst and bolted the convention.

"The Democratic party," he said, at the time, "is passing through an ordeal the most daring and disastrous in its history, but from the shock received at the Buffalo convention it is plainly evident an organization in New York city which shall represent Democracy and not demagogism, must be created. I shall remain true to Democratic principles but I can not vote for Hearst."

POSTMASTERSHIP WAS PROMISED SHEPHARD

Another Democratic Representative in Lorimer Probe Gives Testimony.

CHICAGO, Sept. 30.—Representative Henry S. Shephard of Jerseyville, Ill., a Democrat, testified before the Lorimer investigating committee today that he was induced to vote for Senator Lorimer on a promise of Mr. Lorimer that he would do all in his power to prevent the appointment of two Jerseyville men to the postmastership of that town. Shephard said that he still hoped the promise would be performed.

Six witnesses were heard by the committee, of whom four were members of the legislature that elected Senator Lorimer. George W. Myers, the only legislator of the four who did not vote for Lorimer, testified he had refused to vote for Lorimer, after being informed by Democratic Leader Lee O'Neil Browne that there were good state jobs and "plenty of money necessary" in prospect if he voted that way.

"What did he say to you then?"

"He asked me the name of a woman with whom he had met me," said Shephard.

Later it developed that the young woman was a relative of the witness with whom he was dining in the St. Nicholas hotel in Springfield.

Wanted Republican Postmaster.

The postoffice promise Shephard declared was made in person by Senator Lorimer. In response to questions from Senator Frazier, Shephard said that the men he objected to were W. P. Richards and J. W. Becker of Jerseyville, and that he suggested last fall the name of W. S. Pitman, a Republican, for the appointment, which has not yet been made.

The witness related his experience before a grand jury in Chicago, and said he had been threatened with indictment for perjury if he did not declare that he received money from Browne and Wilson.

Representative DeWolf was closely questioned concerning his investments in real estate since the election of Senator Lorimer. He told of borrowing money to buy two farm tracts, and testified that for a long time before the election of Senator Lorimer he had been ready to vote for a Republican.

"I am a Democrat," said DeWolf, "but I told a number of persons that I was ready to vote for a Republican. I tried to get some other Democrats to vote with me for Senator Hopkins, but I learned that he did not want Democratic votes.

"I was anxious to end the deadlock and get home. Senator Lorimer came to me and asked me if I could vote for a Republican. I told him I could. He said he was thinking of being a candidate.

Representative Michael Link testified that he received $1,000 from Browne and $900 from Representative Wilson in St. Louis, but insisted that the money was not in payment for his vote, which he declared he cast for Senator Lorimer because of his attitude on federal aid in the Illinois deep-water project.

SENATORS SCOTT AND STEPHEN EXCHANGE VIEWS

DENVER, Sept. 30.—The speech of Senator Tully Scott of Cripple Creek this morning taking to task absentees whom he held responsible in a measure for the delay in disposing of bills pending was replied to this afternoon by Senator John F. Stephen of Colorado City, candidate for Governor on the Republican ticket.

Senator Scott announced his intention to demand a roll call on every question in future and that "the senator or senators responsible for obstruction shall be held responsible."

Among the absentees this morning was Senator Stephen, who had been excused to go to his home for the ratification meeting last night.

This afternoon Senator Stephen charged the Democrats with responsibility for the dilatory methods, declaring that they are in the majority and should be able to carry out a program. He incidentally accused Senator Scott, who he said, posed as favoring platform pledges of the Democratic party of having written the senate amendment to the direct primary bill providing for conventions. Senator Scott did not reply to the accusation.

The house cleaned its calendar today by passing the public utilities bill and sending it over to the senate.

Senator Napier still holds out for the convention feature in the primary bill and it is believed that the senate members of the conference committee will report their inability to agree, necessitating a new committee from the senate. There is considerable speculation as to whether Lieutenant Governor Fitzgarrald will appoint two members favorable to the original bill in their stead.

STEALS ONE CENT AND GETS SENTENCE 5 YEARS

BUFFALO, N. Y., Sept. 30.—Convicted of stealing one cent from a slot machine which he had broken open, Thomas Spader was today sentenced to five and one half years in Auburn prison. His previous record was taken into consideration by Justice Emery in imposing the sentence.

MORE CHOLERA CASES

ROME, Sept. 30. Seventeen deaths and 33 new cases have occurred during the last 24 hours in the cholera infected district, according to official reports.

MOST VENOMOUS CREATURE

From Everybody's Magazine.

One venomous creature there is in this country which may justly be termed a public peril, in the widest sense. Proportionately to population, more victims fall to it yearly in the United States than to the dreaded cobra in India. Some twelve thousand Americans are killed every year by its bite. Three hundred thousand more are made seriously ill from the after effects. Unfortunately the virus works so slowly that alarm is stilled. The victims do not sicken at once. The bite is forgotten; but in 10 days or two weeks after, the subject falls into a fever. His blood is poisoned within him. Eventually, in extreme cases he becomes delirious, succumbs to stupor, and dies.

Yet, because there is nothing horrific to the sensation-loving imagination in the malaria-bearing mosquito, public inertia or ignorance tolerates it with a grin and permits it to breed in city and country alike throughout the length and breadth of the nation. Compared with it, as a real menace, all the combined brood of snakes, scorpions, centipedes, tarantulas, and other pet bugaboos of our childish romanticism are utterly negligible, are as figment to reality, as shadow to substance. It is perhaps characteristic of our airily humorous American temperament that we should have invested the unimportant danger with all the shuddering attributes of horror, and have made of the real peril a joke to be perennially hailed with laughter in a thousand thoughtless prints.

ODD FELLOWS REJECT PROPOSITION OF HOME

In spite of the fact that the committee appointed at the 1909 session of the sovereign grand lodge of Odd Fellows recommended to the 1910 session that a national home be established, the lodge rejected the proposition by a vote of 101 to 95. Peter Schmitt of 1111 Colorado avenue, who was represented the Colorado Springs lodge for years at the grand lodge meetings, did all in his power to get the report of the committee accepted. He expresses the belief that the next grand lodge session will act favorably on the proposition

This city is particularly interested, since the home would probably have been established here.

City Council Awards Legal Printing to The Gazette and Again Discusses Band Concerts.

Yesterday's meeting of the City Council brought out the fact that during the summer the Midland band furnished 25 concerts at $80 each, and gave two concerts for which, it is said, there was no charge. Mayor Avery said that his understanding with the band was that the price was to be $70 per concert.

The matter of opening East Huerfano and South Institute streets was deferred until Monday. Condemnation proceedings were begun several months ago. The property involved is owned by the Zang Investment company, which asks $1,000 for the land necessary to make both streets their regular width and their intersection. The appraisers' valuation is $480.

Contracts for printing the monthly reports of Council proceedings was awarded the Dentan Printing company, and the contract for legal printing was awarded The Gazette.

Selby Hare was the only bidder for a concrete conduit over the El Paso canal, between Fontanero and Caramillo streets. He offers to do the excavating for 50 cents a cubic foot and construct the conduit, without reinforcement, at $1.70 a linear foot, or with reinforcement at $2 a foot. Manholes were quoted at $9 each. The bid was referred to the city engineer and the water department.

PROHIBS NOMINATE COUNTY TICKET AT MEETING TONIGHT

The El Paso county convention of the Prohibition party will nominate a county ticket in the district court room of the court house tonight, beginning at 8 o'clock. Although past elections the numerical strength of the party has not been large, its adherents are far from lacking in enthusiasm. Candidates for the various offices have not been brought forward to any great extent, but it is understood that the Rev. W. L. Lee of the People's Mission will be the candidate for sheriff. E. P. Crowley and the Rev. J. H. Ketchum are mentioned for representatives, while M. M. Burns, Democratic candidate for senator, will probably be indorsed by the convention. For assessor Homer West is talked of, although it is thought that other candidates for this and other positions on the ticket may be named.

Owing to the absence of the Rev. J. H. Ketchum, chairman of the county central committee, Vice Chairman Chamberlain will call the convention to order.

IRRIGATIONISTS RENAME FOWLER; SELECT CHICAGO

PUEBLO, Sept. 30.—The closing hours of the Eighteenth National Irrigation congress today were characterized by as great enthusiasm and lively clashes as have been witnessed on any day of the present gathering, and in which the insurgents overthrew the committee report in the election of president.

Francis J. Heney of California was given an ovation comparable to that accorded Gifford Pinchot yesterday, while the contests attending the adoption of the reports of committees on resolutions and permanent organization were just as sharp as on yesterday, when the Rio Grande controversy was before the congress.

Chicago was selected as the meeting place for 1911 after Los Angeles had carried its fight to the floor of the congress.

The last effort of states' rights advocates failed when the congress tabled the substitute offered by Alva Adams of Colorado for that portion of the resolutions indorsing federal control of interstate waters.

Twitchell Followers Defeated.

The final clash came upon the adoption of a substitute to that part of the report of the committee on permanent organization by which the name of Benjamin A. Fowler of Arizona, incumbent, replaced that of the committee nominee, R. E. Twitchell of New Mexico, for president. The vote resulted: Fowler, 183, Twitchell, 151.

Other officers are:

First Vice President—F. W. Fleming, Kansas City.

Second Vice President—L. Newman Montana.

Third Vice President—A. G. Watson, Pueblo.

Fourth Vice President—John Fairweather, California.

Fifth Vice President—B. C. Buffum, Wyoming.

Secretary—Arthur Hooker, Spokane.

Foreign Secretary—E. McQueen Gray, New Mexico.

Heney's Speech.

Mr. Heney spoke on "Safeguarding the People's Rights."

He launched at once into a discussion of state and federal control, declaring that under the constitution and the law the control of public property is vested in the Congress of the United States; that what property the states get is secured by donation from the federal government.

Heney's Speech.

Mr. Heney spoke on "Safeguarding the People's Rights."

He launched at once into a discussion of state and federal control, declaring that under the constitution and the law the control of public property is vested in the Congress of the United States; that what property the states get is secured by donation from the federal government.

Mr. Heney pointed out how ineffective federal laws have been in preventing grabbers of public lands and other resources from gaining control, but contended that "great progress is being made through the conservation movement."

"But we are still divided into two camps," continued Mr. Heney. "One that supported the policy of leaving the door open until the horse has been stolen; the other that believes in locking the door before the colt is stolen. This is not only true of federal matters but is true in California of state affairs.

Monopolists Gaining.

"Under our present laws, state and national, four-fifths of the resources of the country have already passed into the hands of monopolists. We in the conservation movement are trying to save the other one-fifth to the people. Opponents of this policy contend that we are invading their rights and the rights of the states. Two-thirds of our coal lands already have been given away and any policy that advocates the retention of these ineffective laws for the giving away of the other third of our birthright can only be considered a policy of 'dam-foolism.'

"Why were we not wise when the Populists told us these things 15 and 30 years ago? Instead we had to wait until Roosevelt took up the fight and until President Taft indorsed the Roosevelt program before the St. Paul conservation congress," Mr. Heney continued.

He pointed out that the grant of 155,000,000 acres to the transcontinental railroads in the early pioneer days was greater than the total land reclaimed by irrigation and taken up in homesteads.

Former Governor Alva Adams of Colorado objected to Mr. Heney's statements, declaring that "the only lands in Colorado which have been conserved for the people have been under state control."

TRAGIC DEATH FOR FIRST SHERIFF SAGUACHE COUNTY

MONTROSE, Colo., Sept. 30.—Mrs. W. F. Crowley received news this morning of the tragic death of her father, James Fullerton, who was burned to death last night at Santa Rita, N. M. The old man was living alone in a cabin on a goat ranch and in some manner the cabin caught fire. His charred bones were found in the ruins. Fullerton formerly lived at Montrose.

Fullerton was the first sheriff of Saguache county, Colorado, and was a close friend of Kit Carson, the noted scout. He was related to Senator John Crowley of Rocky Ford.

TWO KILLED IN EXPLOSION

BURLINGTON, Ia., Sept. 30.—The explosion of an oil stove in the residence of Mrs. Jennie Liltech at Gladstone, Ill., tonight, caused a fire in which Mrs. Liltech and her father-in-law, Conrad Liltech, were burned to death.

CARRIES HER STEP WITH HER

From the New York Times.

There is a certain stately old lady who doesn't let the high steps of the old-fashioned open trolley car disturb her. When she boarded a car yesterday in an outlying section, where the old-fashioned type prevails, the other passengers noticed that she carried a light rattan and cane footstool, possibly six inches long.

Its use became clear as the old lady reached her destination. She signaled the conductor and, with a gracious smile, held out the stool. The man took the hint and placed it so that she dismounted with dignity. Then she thanked the conductor. What would happen if he should chance to be surly or disobliging isn't clear, but probably very few car conductors would want to make such a dignified old lady do the high jump along with the other passengers.

The ship Roosevelt, on which Commander Peary made his famous trip to the Arctic regions and which, according to report, has passed into the hands of John Arbuckle, the noted coffee man, who is very desirous of the opportunity to raise the battleship Maine in Havana harbor. The purpose in acquiring the Roosevelt is to use the ship in connection with his engineering plans for raising the sunken battleship. Mr Arbuckle says he can save the United States $150,000 if permitted to raise the vessel

Made of Forest Roots

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and, in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his

"Golden Medical Discovery"

which has proven itself to be the most efficient stomach tonic, liver invigorator and blood cleanser known to medical science. Dyspepsia, or indigestion and torpid liver yield to its curative action.

The reason *why* it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed *free* to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements is

Dr. Pierce's Favorite Prescription,

as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper. Don't accept secret nostrums as substitutes for these medicines OF KNOWN COMPOSITION.

The life blood

of a watch is the oil that lubricates it. It doesn't want too much or too little. It requires a very delicate touch to put on just the right amount. The tiny drop that it wants it wants very much.

The Waltham Watch Co. spent two hundred and fifty thousand dollars to clean and re-oil a lot of their watches which had been oiled with a consignment of poor oil. This illustrates the importance of oil, and more especially, good oil.

Your watch should be thoroughly cleaned and oiled once every year. It may not be dirty, but in this climate the oil dries and gums very rapidly and should be renewed. To let a watch run in this condition is very injurious.

If we clean your watch, you are sure it is perfectly cleaned, correctly adjusted and oiled with the best oil money can buy.

FORMER POSTMASTER L. C. DANA VISITS HERE

After attending the National Irrigation congress at Pueblo, to which he was a delegate, L. C. Dana, for many years postmaster at Colorado Springs, beginning in the first term of President McKinley, arrived in this city Thursday to spend about a month. Mr. Dana's home is in San Diego, Cal., for which city he is an enthusiastic booster.

MUST USE LESS POWDER HEREAFTER IN BLASTING

George N. White of Manitou, who is blasting near the mouth of Williams canon, preliminary to building a house, has been warned by the town marshal to use less powder, because the inhabitants of that section state that their lives are endangered every day and that considerable property has been destroyed. It is said that the child of Mr. and Mrs. George Davidson, who live in that locality, had a narrow escape when a large rock struck but a few feet from him.

DEMOCRATS TO SELECT TICKET

INEZ JOHNSON DECIDES TO BE CANDIDATE.

County Convention Will Be Held in Court House This Morning at 11 o'Clock.

Clerk—E. C. Shelden.
Sheriff—James P. Bussey.
Treasurer—James J. Eubank.
Assessor—Van E. Rouse.
Superintendent of schools—Inez Johnson.
Coroner—Thomas H. Douglas.
Surveyor—Charles Hodson.
Commissioner—George Bernard.
Representatives—W. C. Daily, Lem Gammon and J. K. Radley.
Peace justices—Rollo Custer and F. N. Bentall.
Constables—Harry Long and Omar Warth.
County chairman—W. Thomas Christopher.

The above ticket will in all probability represent the Democrats on the official ballot this fall, according to prominent members of the party. The surprise of the list is the name of Miss Inez Johnson who at first refused to allow her name to go before the convention for renomination. Yesterday, however, she reconsidered, and will doubtless be the Democratic candidate on November 8.

The convention will be called to order in the district court room at the court house at 11 o'clock this morning by County Chairman C. M. Hawkins. After the roll has been read by Secretary Van E. Rouse the convention will at once proceed to the nomination of candidates.

FRED S. TUCKER FURNITURE CO.

DOES NOT HAVE TO BE MOVED FROM THE WALL

THE KINDEL Davenport, Parlor Bed and Wardrobe combines more style, strength, elegance, durability, utility, simplicity, comfort and economy than any similar commodity upon the market.

The construction, mechanism and operation are so simple that a child can, with ease, instantly change it from a Perfect Davenport to a Perfect Bed, without moving it from the wall. There are no complicated parts to get out of order.

The bedding is always in place, concealed from view during the day, but ready for use at night.

The springs are "Long Cone Coils" and made from the best oil-tempered, steel wire.

Mattresses and Cushions are made from Kindel's hygienic felt, which gives comfort and durability. You do not sleep on the upholstery; this is protected by the cushions automatically reversing, which brings the mattress uppermost as a bed.

There is also a spacious wardrobe box under the seat, which is easily accessible.

We show the full line.

DRY FARMING A SUCCESS

J. P. Taylor, an exponent of dry farming in the Woodland Park country, was a visitor in the city yesterday, and declared that the ranchers using dry farming in his vicinity are having extremely good luck this season. Crops will be larger than usual. Taylor brought to Colorado City 1,200 pounds of potatoes, which he raised on two acres of ground without artificial irrigation during the season.

ROLLI LEAVES FOR CONGRESS

Benjamin Rolli, the delegate who will represent Colorado City at the Dry Farming congress at Spokane, Wash., which commences tomorrow night, left for the coast last night. He will be the only local delegate, as the chamber of commerce did not send a representative, as was expected.

A Mother's Love

wisely directed, will cause her to give to her little ones only the most wholesome and beneficial remedies and only when actually needed, and the well-informed mother uses only the pleasant and gentle laxative remedy, Syrup of Figs and Elixir of Senna, when a laxative is required. It is wholly free from all objectionable substances. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co.

PROPERTY FIRE DEPT. IS VALUED AT $35,807

For thoroughness the detailed report submitted yesterday by the fire department is the most complete of any yet turned in to the board of appraisers which will estimate the value of the city's assets. The report places a total valuation of $35,807 on the fire department and its property, which includes fire stations, equipment and horses. Fire Chief McCartin's invoice gives in detail the equipment and furnishings of every station, and nothing upon which a cash value can be placed has been overlooked in the report.

REGISTRATION PUBLIC SCHOOL PUPILS, 4,668

The registration of pupils in the Colorado Springs public schools last night totaled 4,668, slightly under the total for last year at the same time. The registration always creeps up at about Christmas time, and it is believed that this year's enrollment will exceed that of 1909 when the returns are totaled at the end of the year.

$3.50 Recipe Cures Weak Kidneys, Free

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Back

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a QUICK RECOVERY, you ought to write and get a copy of it. Many a doctor would charge you $3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K912 Luck Bldg., Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

VANDERBILT CUP RACERS OFF AT 6 THIS MORNING

NEW YORK Sept 30—The close students of motor racing are confident that a new record will be established in the Vanderbilt race to be driven on the Long Island parkway tomorrow

The Vanderbilt this year promises to be greater than ever to be speedier and to have a larger field than ever in the history of the event The interest in the race is a great deal keener than has been the case for several years the fact that the race is to be started at daybreak having unquestionably brought back to its support those people who are infatuated with early morning competitions

Early morning practice on the course has brought out some phenomenal times. Dingley is said to have covered a lap of 12 6 miles in 11 minutes 21 seconds a rate of 67 miles an hour. Harry Grant, the winner of last year's event, has not been doing much record-breaking work, but he has been driving steadily consistently and speedily, giving every indication of his car possessing the necessary amount of speed and that great degree of excellency and reliability which is necessary in order to make even a good showing in a race of this character.

The early morning scenes at the course are inspiring indeed, and, if one is to believe one-half of what is heard about speed of this, that or the other machine in practice, he would be in a quandary as to when and where speed will cease

In the Vanderbilt race are some of the best known drivers in the country, including George Robertson, Harry Grant, Ralph Mulford, Louis Chevrolet, Bob Burman, Joe Dawson, Harroun and Joe Matson, all of whom have won honors galore on the race track and road. In the Vanderbilt, alone, will be 51 cars, representing the best American and foreign make, machines that have ever rendered a good account of themselves both for speed and durability. With the above list of men, it can readily be seen that the battle for honors is to be the most bitterly fought, as the Vanderbilt has always been looked upon as the one great event of the year an event which to win means more than any other one race held in the 12 months.

Despite injuries sustained last week while practicing with his Benz racer for the Vanderbilt cup race, it is thought that Smiling George Robertson will be able to drive in the contest.

Al Livingston, who will drive a National car, will have the honor of sending his machine away first in the historic race.

It was officially stated here that owing to the great number of entries in the Vanderbilt cup race this year the cars would be started at 15-second intervals while the Wheatley Hills cars would be started an hour later and the Massapequa candidates one and one-half hours after the big cars had started.

FACTS ABOUT RACE.

Place—Long Island.

Length of Course—12 64 miles.

Distance of Race (22 times around)—278.08 miles.

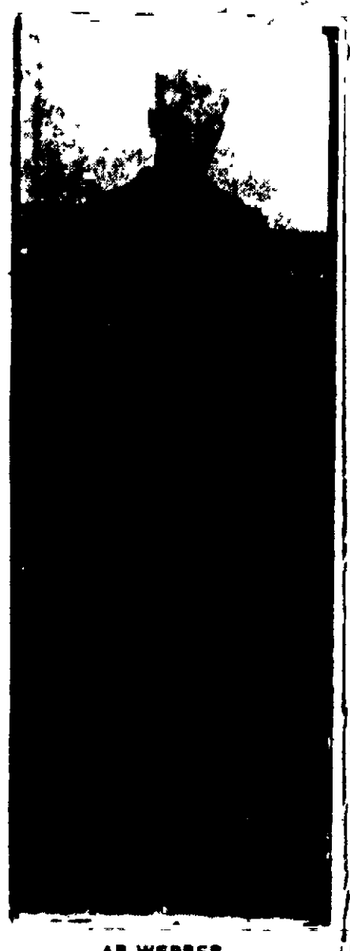

Start—6 a. m., Saturday, October 1

Favorites—George Robertson, Bert Dingley, Ralph Mulford, Louis F. Chevrolet, Robert Burnham and Jack Fleming.

History of Race—First contest, 1904, distance, 302.4 miles. Record held by George Robertson (1908), 64 38 miles an hour.

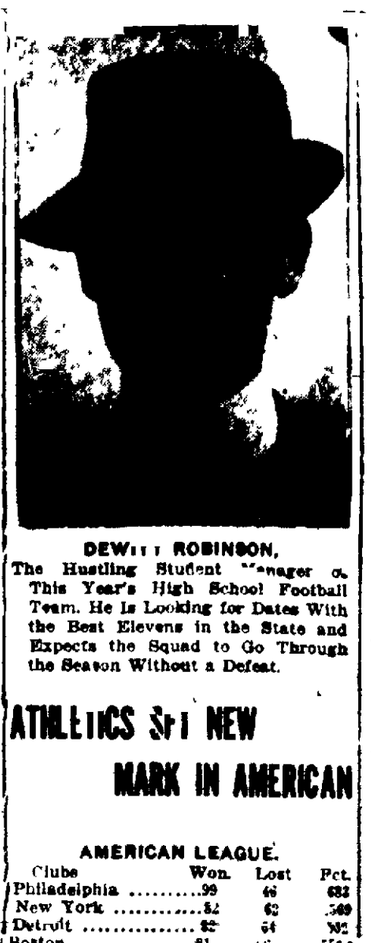

Record for present course (12 64 miles) 9 56½, made by Louis Chevrolet in Buick car. Rate of 76 30 miles per hour.

Other races scheduled: Long Island motor parkway states for Wheatley Hills trophy, 189 60 miles. To be run simultaneously with the Vanderbilt. For Massapequa trophy, 126.4 miles. To be run simultaneously with Vanderbilt.

Robinson Holds Up Title Games

CLEVELAND, Sept 30 Stanley Robison is quite satisfied with the role he is now playing—a stumbling block to the early commencement of the world's series between the Cubs and the Athletics Paraphrasing from a popular song, the Cardinals' owner, absolutely, positively refuses" to give up his Saturday receipts of October 15 from the Cubs-St Louis game in order that the title battle may begin on that day At least he was determined upon that point in an interview here today

If Robison stating that he had no intention of advancing the October 15 game to an earlier date and thus invite the applause of fandom He agreed however, that it might be possible that an arrangement would be made for such a sprint against Father Time, Medicine Hat and other enemies of world supremacy scraps, but that at present he knew of nothing which would cause a change in the regular schedule

This possible arrangement it is intimated, sounds like 5,000 pieces of silver rubbing together to Stanley who is now eclipsing J Kling's record as a 'holdout.' for the boss of the cards is alleged to be a willing Barkis" should President Murphy of the Cubs recompense him for his loss of the Saturday's receipts a loss that naturally would be incurred should the St Louis magnate bow to the wishes of some 5,000,000 fans

But at the present time Robison is a 'standpatter

Fight Pictures Above Criticism

The much-discussed Jeffries-Johnson fight pictures have been exhibited in Colorado Springs twice, yesterday afternoon and last night, and wonderful to relate there was no riot, panic, stampede or other disturbance at the Opera House.

Many well known people both men and women, witnessed the big fight at Reno through the aid of the motion camera and the pictures from a photographic viewpoint, left nothing to be desired They are clear cut, in good focus and practically life-size They showed two men fighting for the world's championship and from start to finish of the exhibition there was nothing to which anyone could take exception depicted on the canvas

The knockout blow which comes well along in the fifteenth round, is plainly visible, though it was delivered when the men were in a clinch Johnson is the aggressor throughout the fight and in all departments of the glove game demonstrates that he is Jeff's superior

OLDFIELD TO RACE AGAINST BROOKINS

SPRINGFIELD Ill, Sept 30—Walter Brookins king of the air, will be the great attraction tomorrow, the second day of the Illinois state fair He will race Barney Oldfield in his Benz car It will be a battle of science propelled by gasoline on earth and in the air The men are scheduled to race five miles Oldfield giving Brookins a handicap of one mile Brookins will ascend between 2 and 4 o'clock in the afternoon The race will take place about the speedway of the fair grounds and will be in full view of the grandstand

Today Brookins fatigued by the wearing tension of the long flight from Chicago kept out of sight and away from the crowds He is the guest at the home of Lane Vrenburgh, a prominent automobile and aeroplane enthusiast Both Brookins and Wright refused to be interviewed The former kept to his room a greater part of the morning coming out about noon for an automobile spin about the city

FOOTBALL MAKES FORMAL ENTRY IN THE EAST TODAY

TODAY'S FOOTBALL.

With many of the bigger universities and colleges going to the gridiron today, the new game of the brand ordered by the football doctors will be given a thorough trying out. It is safe to make the prediction that some of the easterners will like the 1910 code, and equally safe to prophesy that others will criticise it from start to finish.

So far as Colorado elevens are concerned, today will be without games of any great interest. Denver university will play an alumni eleven, Boulder will line up against the Preps and Sacred Heart will try conclusions with East Denver High school.

Both the Colorado College and High School elevens put through another two-hour practice yesterday afternoon. Neither team suffered any ill effects from the fast scrimmage of the evening before, and the squads were just as eager for work yesterday as though they had had a three days layoff It is now the intention of Coaches Rotnagh and Coffin to lin their teams up for practice every Tuesday and Saturday until the regular season opens Every man is working with a determination to make a place on the respective teams, and the showing thus far has been one to encourage the coaches By the end of next week it is expected that the first teams of both the college and High School will be selected Kippo, a star tackle last year, was out with the Terror squad yesterday, a committee having secured the consent of his parents for him to play again this season His presence in the line will add greatly to its strength and improve the chances of the locals many fold

By Monday or Tuesday next it is expected that definite information concerning what action Marquette university will take with regard to the game scheduled with Denver on October 15 The matter of cancelling the contest has been put up to the board of control at the Wisconsin institution which first announced that it would not agree to let Denver out of playing the game While the threats of the university to bring libel suits for the alleged attack on its eligibility rules are not taken seriously, especially at Boulder, some interesting developments in the controversy are expected to follow. Dr Norlin of Boulder, who refused to sanction the game, says that he told the truth regarding Marquette's eligibility code, and declares that he has nothing to retract

The big lass game between the freshman and sophomore teams at Colorado College will be played this morning, beginning at 10 o'clock Johnny Herion will captain the freshmen and Glenn Bowers, a candidate for the 'varsity, will direct the destinies of the sophomores Although there are five 'C' men in the soph lineup, they have practiced but little together, while the freshmen have been going through a strenuous workout every afternoon for the last week The freshies will have the faster team, though lighter than the sophs, and to a man the new class can see nothing but a decisive victory for the freshmen

Evelyn W. Wins Remarkable Heat at Columbus Meeting

COLUMBUS O Sept. 30.—What habitues of the Grand Circuit pronounced to have been the most remarkable heat and finish seen at any point this year occurred in the middle mile of today's 2.05 pace, a race that went to Evelyn W second to Earl, Jr in pooling

The Cleveland mare won on the outside in 2 02¾ with the next four lined up across the track and all so close together that even Evelyn W's victory was doubtful Earl, Jr, took the first heat in 2 03¼ a new time for him, and Evelyn W. was sixth because of a break

At the start of the second heat Major Brino picked up the Cox pacer and carried him the first quarter in 30 seconds and the half in 1 00½. On the far turn Star Patchen made a break and dropped back

After the second heat had been taken away from him, Earl, Jr, stood a show to win in slower time until the last eighth when Evelyn W rushed along the rail and won by a length from Major Brino with Earl Jr, third

Scandal appeared during the final heat of the 2 07 trot it being disposed of officially by fining Driver Nottingham $250 for the offense of not trying to win with Hallworthy, who had beaten Brace Girdle by inches the second mile in 2 03¼ or time equaling that which Brace Girdle made when she won the opening heat from Nancy Royce with room to spare

Brace Girdle fifth heat, was the winner of the race as she stood best in the summary After announcing the fine, bets on the heat were declared off but the auction pools were allowed to stand In the selling Hallworthy was the highest favorite. The meeting ends tomorrow Results

Mathewson, the Giants Star, Has Made Wonderful Record

NEW YORK, Sept. 30—Christy Mathewson is a remarkable athlete. He had the luck to fill when he drew to physique and brains. There are a few pitchers in the big leagues who haven't the speed and the curves they used to have, but they retain their control of the ball and have as a stock in trade an intimate knowledge of the weakness of every hitter who faces them. They "get away with it" because they mix brains with their limited ability, and win over younger men who have speed and curves to burn

Once in a long, long time there comes a pitcher who has everything—speed, curves, control and knowledge of his opponents. Mathewson is such a pitcher. He has great physical strength a fine assortment of curves including that heart breaker the "fade-away" for which there seems to be no antidote, and with all this, knowledge of the weak spots of hitters which enables him to feed a man the very thing which he cannot use

Mathewson has been 'up there a long time. He was a great pitcher before the illness which came near putting him out of baseball for good. While he was recuperating from that illness he experimented with a new series of curves which might be delivered with as slight tax on his strength as possible He discovered the 'fade-away," and he is the only man in the world who can make use of this peculiar drop. It is now his trademark. Lots of fellows know how he throws it, they know how to go through the motions but when it comes to whipping the tips of their fingers over the cover of the ball in order to make it float up and then fall dead in front of the plate they have to pass out The "fade-away" belongs to Mr Mathewson and he will never have to have that delivery patented

Matty is the big gun of the Giant battery. They shoot him in when they need a game, and the confidence which this big chap inspires sends the New Yorkers out like champions. Last year the Giants did not hit save in streaks Mathewson pitched just as well as though his teammates were tearing the cover off the ball and making runs for him. In one big game at the Polo grounds the big blonde, rather peeved because the hitters would not give him an ace to win on, soaked the ball into the bleachers for a home run and called it a day. It was the only one he got all season, but he got it at the right time

Mathewson's great specialty is finding out what the new leaguers do not like He has a memory like a filing cabinet By the time he has watched a new man work through a game against a right-hander Matty comes pretty nearly having the case diagnosed, and he knows, what is more important, what he does not like.

SATURDAY, OCTOBER 1, 1910.

DEMOCRATIC PRESIDENTIAL ASPIRANTS.

DISSENSION in the Republican ranks seems to have encouraged the Democrats not merely to the reasonable hope of electing a majority of the next Congress, but to the altogether improbable hope of winning the Presidential election in 1912. Already candidates for the honor are being "prominently mentioned," which, though by no means equivalent to an election is at least pleasing to personal vanity.

The latest of the Democratic leaders to be thus "prominently mentioned" is Champ Clark, minority leader in the House and probable Speaker in the event of a Democratic victory next November. At first thought it would seem that if Mr. Clark is really a candidate for his party's Presidential nomination the elevation to the Speakership would be a good things to boost him toward the higher honor. The Speaker of the House is a very important personage, second in power only to the President and of vastly greater consequence than the Vice President. But in at least one notable case that of Thomas B. Reed an election to the Speakership signally failed to advance Presidential aspirations. In 1895 Reed and McKinley were the foremost candidates for the Republican nomination the following year, and it was supposed that the power of the Speakership would give Reed a considerable advantage over his opponent, then Governor of Ohio. But thanks to Mark Hanna's genius for organization, McKinley's victory was assured even before the convention met. If Champ Clark becomes the next Speaker of the House he may fare better in his Presidential aspirations, but his occupancy of the Speakership is hardly likely to be the determining factor.

Other Democrats whose names are mentioned in connection with the nomination two years hence are Mayor Gaynor of New York, Governor Harmon of Ohio, former Governor Folk of Missouri and President Woodrow Wilson of Princeton, nominated a few days ago for Governor of New Jersey. Mayor Gaynor has declined to be a candidate for the Governorship of his State, but there is a general belief that his eye is fixed on the Presidency. Governor Harmon has come into prominence partly because of his successful administration in Ohio and partly by reason of his anti-trust views, summed up in the slogan, "guilt is personal." He is a candidate for re election, and if he wins in November it undoubtedly will make him a formidable contestant in the Democratic national convention of 1912, but if he is beaten it is hard to see how he can save himself from eclipse.

WORTHY HONOR FOR THE WINNER.

Missouri Democrats have already formally indorsed Folk for the Presidential nomination, but as the situation appears now he seems less likely to get it than any of his opponents. Folk made a good record as Governor of Missouri several years ago, but he has been in private life for a long time, a fact which is likely to militate against him.

About three years ago several exponents of the eastern "safe and sane" wing of the Democratic party, headed by Harper's Weekly, vigorously boomed Woodrow Wilson for the Presidential nomination, but at that time the party was still laboring under the Bryan hallucination, and the name of the college president was not even presented to the convention. But interest in him is now revived by his nomination for the governorship of New Jersey, an event which has elicited general commendation from the press without regard to party. President Wilson is a man of unusual character and ability but it is doubtful whether he possesses the personality that inspires enthusiasm and wins votes in a Presidential contest.

After all, this discussion is largely academic for there is scant reason to believe that the Democratic candidate for President in 1912, whoever he may be, will possess a more substantial honor than his predecessors in 1908, 1904, 1900 and 1896. Before the time comes to settle the contest the Republican party will have purged itself of the reactionary element which for a time almost threatened its existence and will be a more compact, harmonious and aggressive fighting force than ever before. It will stand for the vital principles for which its progressive element is now fighting and will inevitably show to itself the better and more progressive element of the Democratic party. It is hard to see how any regular Democratic organization can reasonably hope to put up a successful fight under these conditions.

BONYNGE'S CANDIDACY.

From the Herald-Telegraph.

It is true that Mr. Bonynge, as candidate from the First District, is not a direct issue to the people of this city, but nevertheless they are deeply concerned in the sort of representation which the state is to have for the next two years and therefore the Progressive sentiment of the party everywhere regrets his nomination.—The Colorado Springs Gazette.

We live and learn. Most people were under the impression that the Republican nominee for Congress in the First District was Mr. James C. Burger. If that is what the convention said the other day it was if nominated him. Mr. Bonynge hasn't been in Congress for about two years. Possibly, however, the news hasn't reached The Gazette office yet. That sometimes takes time.

WHAT The Gazette meant to criticise in reference to Mr. Bonynge, but through a confusion of name failed to make clear, is his candidacy for the Senate two years hence. This criticism is based on the fact that throughout his six years of service in the House he showed no progressive tendencies whatever, but more particularly because he is now and has always been an avowed standpatter. At the Lincoln Birthday dinner in Denver, last February, he delivered an elaborate defense of the Payne Aldrich tariff, the central idea of which appeared to be that everybody in Colorado ought to give three cheers for that measure because it places a duty on zinc and tungsten! As one of the central figures in the State Convention here last week he attracted notice principally because of his fight against the adoption of a progressive platform.

Mr. Bonynge has never hesitated to give ample assurances of his devotion to the sort of Republicanism which was in the heydey of its glory fifteen years ago but is now thoroughly discredited the Republicanism of Cannon, Aldrich, and others of their kind, rather than that of Roosevelt, Dolliver, and LaFollette. There is pretty good evidence that a very large majority of the Colorado voters who adhere to the Republican party do not want their State represented in Congress by a man of reactionary views, and it is not a betrayal of confidence to say that this will be made perfectly apparent if the people ever get a chance to put themselves on record concerning Mr. Bonynge's senatorial aspirations.

STREET NAMES.

To the Editor of The Gazette:

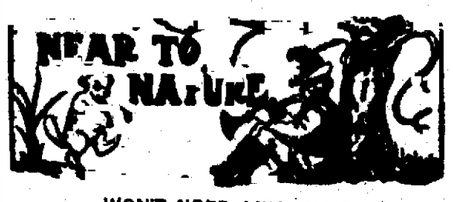

I vote for no change of names of the streets of the original townsite of Colorado Springs. Will some subscriber inform me who gave the names to these streets. After what or whom were they named, and which of them are of Spanish, French, Indian or English origin.

Colorado Springs, Sept. 30.

The streets of the original townsite of Colorado Springs were named by Mrs. William J. Palmer.

In general the north and south streets were named after mountain ranges and the east and west streets after rivers and streams.

The names of Indian origin are: Sahwatch (a corruption of Saguache), Wahsatch, Kiowa, Cheyenne, Willamette, Yampa and Uintah. Bijou, Cache la Poudre, Platte and St. Vrain are French. San Rafael, San Miguel, Buena Ventura, Caramillo, Del Norte, Espanola, Fontanero, Huerfano, Cucharas, Vermijo, Castilla, Cimarron, Moreno, Rio Grande, Las Animas, Las Vegas, Tejon, Nevada, Corona, El Paso, Sierra Madre, Alamosa and Conejos are Spanish. The others are English.

WON'T NEED ANY CHOIR.

From Siloam Springs (Ark.) Exchange.

The members of the Baptist church of Siloam Springs have felt the need of a piano for their church and the news came as a thunderclap when they heard of the generosity of Mrs. A. J. Estes. It is a burl walnut case, birdseye maple back, brass trimmed throughout, empire top, and the tone is full and resonant and it is capable of producing any quality of music from the sound of a murmuring brook to the deep thunderous chords of a Hungarian rhapsodie. The singing quality of tone will make it especially adaptable for church purposes.

FOR USING DANGEROUS WEAPON?

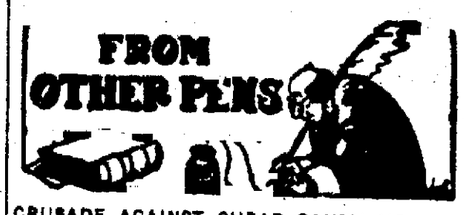

From the North Manchester (Ind.) Journal.

Deputy Fish and Game Commissioner Rodney Fleming of Fort Wayne arrested his first woman violator of the fish laws in Starke county recently in the person of Mrs. George Jackson of Walkerton. Mrs. Jackson was charged with spearing fish with her husband.

CUPID, AS WE RECALL IT, WORE A PAIR OF WINGS AND A BOW AND ARROW.

From the Galesburg Mail.

At this point Miss Louise Weinburg and Miss Fayette Weinberg, dressed as cupids, came forward carrying the diamond, the token of her betrothal.

CRUSADE AGAINST CHEAP CANDY MENACE.

From the Philadelphia Inquirer.

The arrest of 11 persons charged with making and selling cheap and impure candies seems to indicate that the authorities intend to go after these violators of the pure food law in a manner that they will have cause to remember. It is said that a beginning only has been made and that other prosecutions are to follow as rapidly as evidence can be obtained.

There is every reason why the practice of selling this stuff which is not fit for consumption should be broken up. Precautions are being taken in other ways to protect the city's young from impure foods. The crusade for pure milk has been wonderfully effective and work along other lines has proved just as successful. If, however, these efforts are to be nullified by the cupidity of the candy sellers the campaign for the protection of the child might as well be dropped at once. There is no way of keeping the stuff from the young if it is for sale. They will secure it in some way, and the only means of stopping its use seems to be to exert drastic measures against its sale.

It should not be a difficult matter to secure convictions of those guilty of the practice, because analyses of the various products show them to contain all forms of impure matter used in violation of the pure food law; such as glue, shellac, sulphurous acid, etc. A man who knowingly feeds such stuff to children for the sake of a little money deserves to get the severest penalty the law can inflict, because he is practically dealing out to them sickness and death. It is in some measure a traffic in human lives and should be regarded as such.

SINCERE HATING IN TENNESSEE.

From the Chicago Inter-Ocean.

Tennessee's claim to be a state of sincere haters has generally been subordinated to that of Kentucky. Persons familiar with the situation, however, declare that people hate just as fiercely and just as long in Tennessee as they do or ever did across the state line. Why shouldn't they? Tennessee has a large population of mountaineers and a good deal of mountain blood in the lowlands. And these people, with their ideas of personal vengeance, their traditions of "hating people out of a community," are notoriously the haters who give Kentucky one of its distinguishing characteristics. In Tennessee, as in Kentucky, the old antebellum line of division between mountaineers and lowland planters, between the aristocrats and the poorer set, which cast the latter into the arms of the Union during the rebellion largely because the others went the other way, though no longer maintained, is still discernible in a certain added popular capacity for hating. But it is not necessary to go into the racial, historical or traditional arguments to show that Tennessee is entitled to a place by the side of Kentucky. Recent political events would alone be sufficient to establish the fact beyond all cavil. When even an "independent Democratic convention" indorsed a Republican candidate for governor, the force of bitterness in a southern state, at least, "can no further go."

HIS OWN FAULT.

From Collier's.

Being round-shouldered is a moral flaw. It is caused, maybe, by poor eyesight, wrongly constructed chairs, and rickets, but the ways of curing it are manifold. You may if you choose practice walking with a brick or a cup of water on your head; you may throw your shoulders back; you may walk with arms folded behind you; you may try to keep the upper section of the backbone perfectly flat; you may try to push against your collar with the back of your neck. You may practice any one of the seventeen other schemes to stand erect. Undoubtedly one of the best of habits is that of deep and leisurely breathing. To be round-shouldered is to be guilty of moral failure, since it can be cured at will.

September, glad September! For you I break a pen! The fireplace and the ember seem passing good again; the days are short and hazy, the nights are long and lazy, the flies don't drive us crazy, and man enjoys his den. The nights are long and lazy, and sleeping is a treat, September is a daisy, and simply can't be beat; the summer made us leaner, and saddened our demeanor; now appetites are keener, and O, the pies we eat! This gentle month will cure up the wounds that summer made; the pauper months of Europe are badly in the shade; the leaves are red and yellow, the winds and birds are mellow—O, is there any fellow who'd see September fade? The skies are blue and sunny, the woods are nobly dressed; the miser leaves his money to view the golden west; the statesman quits his station, forgets the "situation," to voice his admiration, since Nature's done her best. September, O, September, my love you surely hold! I dread the bleak December, the winter long and cold, when Col. Boreas roarest, and Nature's at her sorest—for me the Autumn forest that's painted red and gold!

The Daily Chit-Chat

I want to take exception to a very old proverb today—Half a loaf is better than none.

In one application that is true, of course, but in another sense I think it is way off.

For, although in getting, half a loaf is certainly better than none, in spending I think it is more often worse than none.

That is, if you are going into a venture of any sort, it doesn't pay to go in a half-a-loaf style.

On a paper on which I once worked the management decided to feature a certain big festival. "Feature," let me explain to the uninitiated, means "give a lot of space to."

"We will send all our special writers and cartoonists to this affair," said the editors, "and have them write and draw a lot of stuff that will interest and flatter these people. Then we will advertise on the grounds what splendid accounts we are giving of the Such-and-such Convention, and that will make all those people buy our paper, and we shall get our money back in advertising."

All of which would have been very splendid if they had only done it in a whole-loaf style.

But they didn't. Somewhere in the process the management evidently lost its courage about spending all that money, and instead of advertising the paper's intention to devote so much space to its reports of the convention in a wholesale way that would have brought results, the management stuck up a few posters so small and obscure that no one who wasn't looking for them could have found them and let it go at that.

Result—Because they lost their nerve and spent so little in their attempt to attract attention, they failed utterly, and the money they did spend accomplished absolutely nothing, and was completely thrown away.

If they had spent three times as much they would undoubtedly have had a hundred times the results.

Half-a-loafism is the worst kind of economy. Isn't it better to spend more than you really can afford and get it back twice over in results, than to spend half as much as then lose it all?

Big money often gets big money.

Small money often gets lost.

The man who puts all he can afford, and then some, into a venture, burns his bridges behind him, and, therefore, goes ahead with a desperation and determination that are almost sure to bring success.

He mustn't lose, and, therefore, he doesn't!

All of which, although I have put it in terms of money because that was the easiest way to express it, is meant to apply just as much to the wholehearted use of other things time and energy and self, for instance.

If you are about to start any venture, whether it be getting up an entertainment, winning a man's love, or going into business for yourself, remember that half a loaf is better than none applies to getting, not to spending, and go about it in a whole-loafed way, or not at all.

RUTH CAMERON.

LIFE LINES

A BIT OF PHILOSOPHY IN EPITOME.
—By Ruth Cameron.

The spheres of the universe give forth music to the wise, we are told, but do we not see and hear and know that life's harmonies come from every tiny individual cell as well.

Even if the distance you must travel should be great, from your purpose to your goal, you will find sufficient troubles and with triumphs on the way to make it pay.

If man makes it his rule to do as others do, and if he wants to conform to the affected pride and fashion of his day, he becomes but the whimsical whiff of the wanton and worthless.

Virtue brings to you its own reward by lifting you ever heavenward; but the wicked lie, whether in thought or word metes out to you its proper punishment.

A thimbleful of high quality brains is worth more than a bucketful of the inferior sort; it's the power to think that counts and we are judged more by our actions than by our aims.

When you have learned the rules and how to use success tools, you will then be able to hurl defiance at defeat; the world will look better to you then, because you are a better man.

Man builds his character though his trials and the tests that temptation brings; whether man give forth the song or the sigh, whether he laugh or cry as he takes his lessons in the great school of life, he fits or unfits himself to live and to die.

Only the man who knows your faults and will not chide you, and who loves you for your good fruits and does not envy you, is your true and enduring friend.

The sighing saint can never glorify a God whose whole creation is one grand rhythm of song; sanctity lies in seeing the good and doing it for the joys it brings.

POLICE DEPARTMENT HAS ITS FULL QUOTA OF MEN

It was announced at headquarters yesterday that beginning this morning the police department will have its full complement of 33 men. For the last few months, owing to sickness and vacations, the force has been lacking anywhere from two to five men, but the appointments of four regulars to the squad this week, has completed the regulation quota. Chief Armstrong says that he will increase police protection in the north end and will also detail a regular officer to catch auto speeders.

OATS, WHEAT AND CORN CLOSE WEAK

CHICAGO, Sept. 30.—There was a sharp drive at grain prices in the last few minutes today, and the market, which had been wavering for some time previous, closed weak at a net decline of ⅝@⅞ to ⅞ in wheat; ⅝ to 1⅛ for corn, and ⅜ to ⅝ on oats. The finish of provisions varied from 20c low to 15c advance. During most of the day wheat was higher than yesterday, but was unable to make any noteworthy gain. The slight rise was due mainly to the fact that Liverpool quotations were not so weak as had been expected.

Buying power, however, was not impotent, and there was increased selling with each advance. One reason was that the relative bullishness in the English market had partly for a basis predictions of lighter world shipments, but the fact developed that the total, although smaller than last week, would be larger than a year ago. Argentine, Indian and Australian shipments were shown to be more than twice as heavy as at the corresponding time 12 months previous. Then, too, the stocks at primary points in this country kept piling up incessantly. December ranged from 96 to 97⅝, and in the end was 96⅝, a net loss of ⅝.

In corn a new low record price for the season was set. December fluctuated between 48⅝ and 49⅝@⅝, closing weak, at 48½@⅝, a net loss of ⅝@1. The cash market was easy. No. 2 yellow closed at 52@53½. Shorts were the only buyers of oats. December sold from 32⅛ to 33, and finished ⅛@⅜ off, at 32¼@⅜.

Some firmness in provisions was followed by liberal September shorts. Later quotations showed pork 10 to 30c down; lard, 15c higher to 17½c lower, and ribs at 12½ advance to 10c decline.

RUMORS SEND PRICE ON W. U. STOCK UP

NEW YORK, Sept. 30.—The shipments of cash during the week by express seem to have taken a comparatively small sum of balance from the banks, but the $4,913,000 loss on subtreasury operations reflects interior money demands to a large extent. Drafts on New York banks from interior correspondents for payments to the government on account of internal revenue taxes have been on a large scale. Discounts in foreign money markets held firm on the last day of the quarter, but demand for remittance from New York relaxed with the completion of the stock market settlement in London and foreign exchange rates receded. The absence of disturbance in the call money market left the speculative movement in stocks free from constraint. Advantage was taken of the situation to push forward into active strength a large number of stocks which have had little part in the market doings for some time.

It was a market of specialties. The advance in Western Union was on rumors of a merger with American Telephone, for which no official countenance could be had. Erie benefited by the good showing of August net earnings. Some of the southern railroad stocks were affected by the extraordinary increases in southern cities disclosed by the census returns. A reported restoration of asking price for Lake Copper by the Calumet and Hecla was a factor in the copper group.

Bonds were firm. Total sales, par value, $2,586,000. U. S. bonds were unchanged on call.

The Demon of the Air.

Is the germ of La Grippe, that breathed in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of Stomach, Liver and Kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore health and good spirits after an attack of Grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by the Hefley-Arcularius Drug Co., 21 South Tejon St.

Capt. Mercurius Again Hits the Bull's Eye.

This world famous rifle shot who holds the championship of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says:—"I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Sold by all druggists.

GIRLS LEARN CARPENTRY

They Handle Hammer, Saw and Plane With Real Skill and all Be Lousiness.

From the New York Herald.

It is only recently that young girls have taken it into their pretty heads to do the work of carpenters. Moreover, they do it exceedingly well, while being particularly keen about the sport exercise, useful accomplishment or whatever they are pleased to term the pastime. It is not implied that they merely provide themselves with a kit of tools and then seek about for odd jobs at which to amuse themselves. The cult of carpentry is entered into seriously.

At various conspicuous country places girls who keep abreast of the times have formed classes at which practical carpentry is taught.

To procure a good teacher for such a class is also necessary to its success. A few of the most capable teachers are women. Boston especially has provided a number.

The moment of intense interest occurs when the class is promoted from the general practice work on which each one has left her mark to the beginning of individual pieces. Often then the first choice of a girl is to make a table or a chest, although the small wall cabinet, with shelves for medicine or other bottles, seems to be the favorite first bit of individual work. This piece is done under the eye of the teacher, and often she lends a helping hand should the beginner find it somewhat difficult of accomplishment.

It is nevertheless a proud day for the pupil when she finishes her first piece of carpentry work. A cabinet, no matter how plain, when made by her own fair hands becomes a thing more precious than one that could be bought for even a high pile of filthy lucre.

As their skill and thier knowledge increases there is no limit to the ambitions of girl carpenters. Repairs and additions that are needed in their rooms or about their homes they tackle with energy.

WHAT THE PRESS AGENTS SAY

THE TIME, THE PLACE AND THE GIRL

The scene of The Time the Place and the Girl which comes to the Opera House Monday night is laid in the mountains of Virginia at a "rest cure," whither Happy Johnny Hicks, and his pal Tom Cunningham have fled from the result of an escapade of Cunningham's in a gambling house in Boston. The complexities of the plot occur while the "rest cure" is in a state of quarantine with all the servants absent. The guests are forced to do the work themselves—a condition that inspires mutiny among some of them. Of course there is a pretty love story. The production is unusually artistic and the chorus is the liveliest and prettiest crowd of girls that ever were gathered in one company.

Messrs. Adams and Hough are the authors of the play, and the music is by Joseph E. Howard. Ned Weyburn produced the 12 musical numbers. With the prestige of having created the longest run ever made by any show in Chicago, in addition to 10 weeks in Boston, and 60 times in New York, to crowded houses, and three highly prosperous road seasons, "The Time, the Place and the Girl" carries at least one other distinction; it is that this is "a comedy with music and a plot." The combining of a story that can be understood, with music of the whistly sort and wonderful dances by pretty girls have been the pivotal features of its enormous success.

JEFFRIES-JOHNSON PICTURES PLEASE

The performances given at the Opera House yesterday afternoon and evening of the Jeffries-Johnson prize fight motion pictures pleased the two large audiences immensely. There are almost as many ladies as men in the audiences and seemingly they enjoyed the pictures every bit as well. The last performances will be given at the Opera House this afternoon and evening. The prices at the matinee are 25 cents for children and 50 cents for adults in any part of the theater. Night prices are: Parquet, 75 cents; dress circle, 50 cents; balcony, 35 cents and gallery, 25 cents. Seats may be reserved for the night performance.

Aside from the actual interest in the Jeffries-Johnson battle these pictures are also interesting from the point of the art of the motion photography. Such perfect and beautiful pictures have never before been seen in this city. Each film is as clear and distinct as though the actual scene were before the spectator.

The Jeffries-Johnson pictures should be seen by every one who is at all curious about the Jeffries-Johnson fight in particular or any fight in general. Not only is the great fight itself shown in complete detail, but there are other scenes and views of Reno, of the training quarters, of celebrities who visited the fight, of the arena and great crowd of people and other scenes that interest the audiences.

SWIFT AND COMPANY WILL ENLARGE THEIR OUTPUT

News that Morris and company, the famous Chicago packers, had bought a million-acre ranch in Mexico and would build a $1,000,000 plant at El Paso was not more interesting than is the information that Swift and company, the "Co." consisting of one, Mr. Casey, Esq., plan to increase their output next season, appearing in a vaudeville extravaganza that will back competition off the boards. The Swift and company referred to are not packers, except in the sense that they can pack more good music and blackface comedy into 10 minutes than most any team in stagedom, and they are giving evidence of this at every performance at the Majestic this week. They are experts with bizarre and unusual instruments and connoisseurs of good comedy, with the result that their act is thoroughly enjoyable. Casey's playing of the accordion with one hand is especially noteworthy and wins great applause.

A new act will be included in the program today in the shape of Anita Diaz's famous troupe of trained monkeys, the best act of its kind in existence. The great bill for the week, which closes tonight, also includes Will H. Armstrong and Dorothy Dale in the farcical skit, "The Expressman." Murray K. Hill, the premier monologist and singer; Billy Doranto the Chinese musical impersonator; The Baboon and The King of the Beggars," Majestiscope motion picture dramas, and the Majestic concert orchestra program. An exceptional offering at such popular prices as 10 20 and 30 cents.

FIRST MINSTREL SHOW OF SEASON

One swallow does not make a summer, neither does one comedian make a minstrel show.

Managers of the old school used to contend that one real actor and 15 or 16 "sticks" and a band of 10 pieces (it was often eight) was sufficient for a minstrel show, and that the public would accept them. History proves the truth of their contention, for the public did accept such organizations, whether or not the public was satisfied is a question open to argument.

But there have been vast changes in the last few years. The day of the one-man show is over. The public demands a company of uniform excellence.

Mistakes are to the wise man but stepping stones to success. The management of Richards and Pringle's famous Georgia minstrels were the first to realize that if minstrelsy was to thrive and flourish radical and important changes were necessary. Such changes called for the outlay of a considerable fortune, but time and results have testified to the truth of their conviction. This company stands today the acknowledged leader in this branch of the amusement business, and no well-informed student of the stage will challenge this statement. They travel in their own palace cars and number 40 people. Twelve comedians of real reputation vie with each other in the fun making. There are 20 trained singers, a double sextet of nimble dancers, seven big vaudeville acts and a band of 25 pieces, that is the best ever.

The date of this company's appearance at the Opera House is next Saturday, October 8, matinee and night.

SIX BIG PICTURES AT THE LYRIC TODAY FOR 10 CENTS

"A Flirty Affliction."—Pretty Molly is afflicted with a peculiar nervous disease and after having tried many doctors is finally referred to a certain great specialist, who has had success with cases similar to her own. To briefly describe Molly's ailment would be in stating that the muscles of her throat and neck were uncontrollable, causing her to throw back her head in a way resembling a person beckoning to another.

Molly goes to see the doctor, who expresses himself able to cure the case and prescribes certain medicine. But as Molly turns to go the unruly head is thrown back and the old M. D. is almost convinced the young lady is flirting with him. As Molly passes through the reception room where one or two young gentlemen are waiting to see the doctor, the peculiar nod is again repeated and the young fellows, each believing the nod to be an invitation, rise and precipitately follow her out.

On the street Molly causes more excitement when she appears to solicit the company of a dignified lawyer, who, nevertheless, likes her looks and tags on after her until he is summarily dismissed with the threat of arrest for annoying a perfectly respectable young lady.

An innocent mail man is the next victim, and he is similarly dispensed with.

An old chap in the company of his wife is also beguiled by the unfortunate girl's peculiar nod and receives a sound berating not only from her but from his watchful spouse.

Even Hauss, the little bas drummer of the German band, is bewitched by the involuntary Circe and gets his drum smashed for his trouble.

The climax comes when Officer O'Rourke falls a victim to the young lady's nod and is told that his services as a protector are certainly not needed. During the argument the captain, O'Rourke's superior, comes on the scene and orders the patrolman on his way.

The girl has reached home and she thanks the captain for his protection. But as she opens the door those unruly muscles work again and the captain accepts the invitation. This is the last hope, and the poor girl slams the door in the captain's face.

"THE TIME, THE PLACE AND THE GIRL,"

Which Comes to the Opera House Monday Evening With George Ebner as Happy Johnny Hicks.

SMOOTH BEGGARS WORK SAME GAME IN WEST

Secretary Bruno of the Associated Charities has just received corroboration of his belief that the "smoothest proposition" in the way of high class beggars and globe-trotters—on other people's money—is the couple going by the name of the Rev. and Mrs. Thomas H. Gardner who passed through Colorado Springs several months ago, and soon left for California on money begged from men and women well known in social and business circles of this city.

Yesterday Secretary Bruno received word from the Associated Charities office in Cleveland, telling of exactly the same game being worked in that metropolis. Since they left the Springs last spring, the couple have evidently traveled all over the country at the expense of the guileless citizens whose sympathy was worked upon by the story of the woman.

The method employed is for the man to keep in hiding while the wife goes first to the office of the Associated Charities. Since she is usually refused there, because of her taciturnity with regard to her plans and history, she then brags that she "will get the money anyhow." And she usually does. She secured sufficient money from residents of this city last spring to proceed on her way, together with her husband, and soon turned up in several California cities, where she worked the same game. In no instance were the offices of the Associated Charities enabled to find out the history of the couple.

"They are just an example of the polite tramp, taking life easy at the expense of the community," said Agent Bruno last night.

REVIVAL MEETINGS TO START OCTOBER 16

A series of revival meetings will be commenced October 16 at the First Christian church by the Reverends Sniveley and Seniff of Illinois, among the most prominent evangelical speakers of the country, and to whom an invitation was extended last March, to come here. Special music will be a feature of the meetings.

CATARRH
A SYSTEMIC BLOOD DISEASE

Catarrh is not merely an affection of the mucous membranes; it is a deep-seated blood disease in which the entire circulation and greater part of the system are involved. It is more commonly manifested in the head, nose and throat, because of the sensitive nature of these membranes, and also because they are more easily reached by irritating influences from the outside. The symptoms of Catarrh, such as a tight feeling in the head, nose stopped up, throat clogged and dry, hacking cough, etc., show that the tiny blood vessels of the mucous membranes are badly congested and inflamed from the impurities in the circulation. To cure Catarrh permanently the blood must be purified and the system cleansed of all unhealthy matter. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the bottom of the trouble and makes a complete and lasting cure by PURIFYING the blood. Then the inflamed membranes begin to heal, the head is cleared, breathing becomes natural and easy, the throat is no longer clogged, and every unpleasant symptom of the disease disappears. S. S. S. is the greatest of all blood purifiers, and for this reason is the most certain cure for Catarrh. Book on Catarrh and medical advice free to all who write.

Newest views of the famous Dr. Crippen murder trial which excepts in London. At top is Dr. Crippen, taken as he left his dock at the Bow street court. In the center picture the father and mother of Ethel Clare Le Neve, the fortune typist of Crippen who is being tried with him, are shown leaving the court. The trial has stirred England as no murder trial for many years. The fact that the principal accused is an American has whetted the interest of the public.

OIL AT FALCON

We are determined to prove that there is oil in the Falcon field, as we have had the benefit of the best expert advice to the effect that it exists there in

PAYING QUANTITIES

We have proved our faith in this enterprise by putting up our own money and devoting our time to this development

In the progress of the work we have had natural gas and sufficient oil to convince us that the investment of the thousands of dollars which we have made is

ABSOLUTELY SOUND

Our well is now down 700 feet, and we are preparing to complete it as rapidly as possible In order to do this, and at the same time to lighten the burden of cost, we have decided to offer for sale 25,000 shares of our stock at 25c per share, the proceeds of which we will use only for development Our capitalization is only 100,000 shares, and we have about 7,000 acres leased. The bringing in of this well will make this stock

WORTH AT LEAST ONE DOLLAR PER SHARE

and, as we will drill at least 50 feet per day from now on, we are reasonably sure to have

OIL IN 30 DAYS

Think of what this means to our stockholders, and, as this offer will remain open for this week only, make your investment

NOW

No less than 100 shares will be sold to anyone. Our books are open for your inspection For further information address

Does it seem Sensible

To carry water into the house in the winter, when you have it piped in all the rest of the year?

No, certainly not.

Well, is it any more sensible to carry coal and ashes in the winter months, when you have Gas for use during the summer?

We don't think so, and neither will you when you stop to think of the work it will save about the house, to say nothing of the saving in the wear and tear of furniture, caused by coal dust and ashes sifting about the rooms.
